

Newsletter "mouz.WC3 to release three players" - 01.07.2007

Habits become ordinary. Accepting changes keeps you young is the motto of the WarCraft III team after having contracted new additions from Asia. Today we say goodbye to three of our players - KnofF, BasH and PhilBot - each of them going to take separate routes. Whereas PhilBot has been semi active for quite a while now due to private reasons, BasH doesn't know whether or how to continue his career. Merely KnofF is confident to join another team soon. However there are no information available yet which one he will choose hence we will have to wait for an official announcement of him or his new team. We wish all three players good luck and success for their further private life and eSports career.

In the course of this announcement we are proud to announce the sponsorship of mouz.WC3 by Wazap!. From now on, the players will play their matches wearing the tag mouzwazap|Nick. However, this does not mean the ending of the successful co-operation with GeiL; latter will of course continue supporting mousesports as a partner. Thus this is merely a re-naming of the team.

WarCraft III Lineup:
